Delaware County Woman Barned to Death by an Explosion of Natural Gas, Special to the Indianapolis Journal.

MUNCIE, April 20 .- Last evening, during the absence of the family, Mrs. Samuel Hardesty, residing a few miles southeast of New Burlington and twelve miles northeast of this city, left the house temporarily to milk a cow, leaving the gas burning from a jet in the kitchen, which was blown out by the wind. On re-entering the room she lighted a match, which caused an explosion, and the whole room for an in-stant seemed in a blaze. Mrs. Hardesty was knocked senseless, and when she regained consciousness it was only to find hersel; enduring the most agonizing pain, with her flesh fairly cooking under her blazing clothes. She tore the burning garments from her person, being aided by others who were attracted to the scene by the lond report of the explosion. The helpless woman was kindly cared for, but only survived a few hours, dying about midnight.

The charred remains were buried this afternoon. The gas had recently been piped into the house of Mr. Hardesty, and Mrs.

H. was not familiar with its use.

Lawrence County's Quarries.

Special to the Indianapolis Journal. MITCHELL, April 20.-This portion Lawrence county is at present receiving quite a boom from the stone and lime business. Land that has been heretofore considered worthless is now developing great wealth. Branching off from the main line of the Ohio & Mississippi railway is what is known as the Rock Lick spur, about two and one-half miles in length. On this branch at present are five large lime-kilns, which yield about two or three cars per day. Still further down, C. S. Leeds, of Chicago, has opened a quarry of the finest quality of blue limeother. About three miles east of town, on the main line of the O. & M., is what is known as Hamer's hollow, which has been noted in the past only for its beautiful scenery. Now the Salem Stone and Lime Company, of Louisville, Ky., has bought a large tract of land there and will soon open extensive quarries of the collitic buff limestone. Adjoining this company's land Wm. Boland and others of this place are now prospecting with cave drills, and have found the same kind of stone in unlimited quantities. On the Cincinnati & Bedford branch of the O. & M. there are at present two quarries of the stone in operation, and another will commence the stone as soon as the track is completed into it. This quarry has a contract for 250 cars for an Eastern city. as soon as they can be ready for shipment This large amount of stone, together with the kaolin mines and the aluminium which is found in the western part of the county, will bring Lawrence to the front as one of the richest mineral counties in the State.

This makes the tickets complete for the coming election. J. C. Johnson, selected by the Republicans, had been placed on the People's-Democrat ticket, but, as he said in a speech to-night, without his authority. To-night that combination is searching for a man to fill the gap made in its ranks. A good deal of talk was caused to-day by the supporters of the Republican ticket trying to place John Hines, Demoerat, to fill the vacancy for marshal on the Peoples' ticket, in the interest of Floyd, Republican, against Miller, Democrat.

One Older Still,

PRISON BRUTALITY.

Report of a Committee That Investigated the Treatment of Minnesota Convicts.

St. Paul, Minn., April 20.-The special committee appointed by the House to investigate the reports of the brutal treatment of convicts in the penitentiary at Stillwater reported this morning. The committee examined three prisoners who tried to escape, and others, and finds the attempt due to the system of working convicts and citizens together. After recapturing prisoner Douglass, Deputy Lemon struck him severely, and, the committee believes, unnecessarily, and the wound had not yet been dressed several days later. Lemon also broke a can over the recaptured prisoner Anderson by repeated blows. The three men were treated to ball and socket and solitary confinement f or sixteen hours and suspended by being handcuffed through the bars of their cells during the entire time. After six bours' rest they were suspended for sixteen more hours. On the hird day of this treatment the committee found them, having been suspended fifty-one out of sixty-seven hours. Similar severe punishment was meted out to others for trifling offenses. The "solitary" was found in a very filthy condition and not fit to put cattle in. It is common to punish men by solitary confinement, with suspen sion, for from two to five days, and even longer. The committee finds the present mode of punishment brutal and inhuman. and believes it should be discontinued. Discipline is under charge of Deputy Warden Lemon, who punishes for trivial offenses in the hardest manner. He is cruel, brutal and inhuman in his methods and measures, and is unfit for his position. The committee recommends his immediate discharge. A resolution instructing the prison managers to that effect was presented, but a substitute resolution was offered and adopted, instructing the insti-tution to use a more humane system of punishment in the prisons of the State.

Good Crops Will Kill the Alliance. The higher prices of farm products and the bright prospects of good crops in the West and South this summer are taking the wind out of the sails of the "calamity howlers" of the Farmers' Alliance in great style. A succession of bad crops caused by an extraordinary succession of disasters in the form of droughts, floods, winds and insects, produced nearly all of the suffering and discontent in the West which led to the organization of new party movements. The pinched and strug-ling farmers could not kick against Nature, or God's management of the elements. and as the next best thing, or at any rate the next most satisfying thing, they "blamed it all on the government," held indignation meetings and made all manner of preposterous demands. One good, full crop will do more to show these men the true cause of their hardships and the foliv of seeking relief by act of Congress than many years of agitation and disastrous experiences in politics.

The New Movement in South Carolina. CHARLESTON, S. C., April 20 .- The recent meeting in Columbia of the white Republicans of this State has caused a tremendous sensation. A. W. Clayton, a prominent white Republican, who was instrumental in getting up the movement, is out in a card to-day, in which he says: "The object of the convention was to form a Republican League in this State as a branch of the National Republican League and to elect delegates to the Cincinnati convention of said national league. We recognize as fully as the gentlemen at Washington that the whites of this State cannot join a party led by Smalls, Miller, and equally offensive Republicans. Our object is to form a nucleus around which white men may rally on protection, ballot reform and the money question, ignoring the race question except to accord the negro his rights as an American citizen."

There is more in the movement here than a mere flash in the pan. The meeting was the first distinctively white Republican convention ever held in this State. The presence of a large number of prominent white men who have heretofore been leaders in the councils of the Democratio party makes it especially significant at this

Will Work for Democracy. TOPEKA, Kan., April 20 .- Levu Dumbauld, chairman of the Farmers' Alliance State central committee, has issued an address to the people in reply to that recently issued by Frank McGrath, president of the State Farmers' Alliance, who claimed that, unless the tarmers of the South deserted the Democratic party, the farmers of the North would return to the Republican party. Mr. Dumbauld denies Mr. McGrath's statement and adds: "The People's party in Kansas is in he field to stay and has no intention. under any circumstances, of abandoning the third-party movement and returning to old party lines. It is solidly in favor of the overthrow of both the old parties without any 'ifs' and 'bute,' and its delegates will go to the Cincinnati conference of May 19 for the purpose of assisting to organize the third-party national campaign of 1892, ready to clasp hands with all who will join that movement for the emancipation of the laboring classes. Frank Leslie Was a Myth. New York Press. Who is Frank Leslie!-Correspondent.

Like the original Mrs. Harris, "there weren't never no such person." An artist by the name of Henry Carter took to himself the name of Frank Leslie when he came from England to this country, which act was legalized by the Legislature somewhere about 1868. P. T. Barnum turnished the capital for Carter to start Frank Les-lie's Illustrated Paper. Extravagant liv-ing ran him into bankruptcy. He paid his wife \$28,000 for a release from matrimonial obligation and married the lady now known as Mrs. Frank Leslie, who was originally Miss Miriam Follin. Miss Follin was at one time a Mrs. Peacock, later a Mrs. E. G. Squires, and later the wife of Frank

The Result in Chicago. Iowa State Register.

The result of the recent election means not only that a Republican will succeed a Democratic administration, but it means a rebuke for the Democracy of the State and Nation as represented by Senator-elect Palmer. The bandanna statesman of the Sucker State will never cease to regret that he undertook a contest in which he had no story to the effect that a family Bible was | business to interfere. The Republican Mr. Walter M. Wood, son of Superintendent Wm. S. Wood, of Seymour, was the constitution is "badly idioted." This means that the idiot of the Republic is attacking us.

The St. Logis Republic says the Constitution is "badly idioted." This means that Easton, which, upon examination, further the idiot of the Republic is attacking us.

It isn't the usual way -it's just the reverse-to pay s patient when you can't cure him. Nevertheless, that's what's done by the proprietors of Dr. Sage's Catarrh Remedy. They promise to pay you \$500 if they can't cure your catarrh, no matter how bad the case. It isn't mere talk-it's business. You can satisfy yourself of it, if you're interested. And you ought to be, if you have catarrh. It's faith in their medicine that's behind the offer. It has cured thousands of the worst cases, where everything else failed. You can be cured, too. If you can't, you get the money. They're willing to take the risk-you ought to be glad to take the medicine.

It's the cheapest medicine you can buy, because it's guaranteed to give satisfaction, or your money is returned.
